“ Ray was the best co-pilot I ever had. We put in many miles going down the road, I think we visited almost every County in the State. While I worked, Ray would visit with the workers there and make friends so next we were welcomed. That family is very kind and friendly we have enjoyed their company many times. I just hope his mother keeps him in line from teasing and tormenting for several more years.

“ Ray and I worked side by side for many years (near 15) for Wasatch County Hospital. He was always respectful of me as his Manager even though we were 20 years apart in age. We laughed together and shared our faults and regrets. Ray loved to be involved in the lives of other people. He loved his children and his wife. It was a pleasure to know and love him. He talked often of his time in BSA with Doug Merkley and the boys.

“ I always enjoyed Ray. He always had a smile to share and wanted to know how you were doing. We had that unique bond that only those who care for such angels as Lori know. My deepest sympathies to Correne, Alan, and Lori who I knew well and to Mark and Janelle who I met in passing.

“ Growing up in the Heber 3rd Ward was a unique experience. We were all family. I loved the way Ray would tease and the way he would always make you laugh. After I married and left Heber I would still run into Ray and Correne occasionally and Ray would always acknowledge me and say hello. It has been several years since I have seen him but I remember him being a good man, a kind man, and a non-judgmental man. May you all be blessed with peace and comfort as the weeks and months go by. Please know of my sincere sympathy. Martha V.W. Remund

“ Dear Correne and Family - We always liked your husband and dad. We considered him a friend. We rembered him from senior citizens and became better acquainted on a trip or two we enjoyed with the other seniors. He was a good man and example to those he met and was easy to become acquainted with. I know he will be missed. Please accept our love and sympathy and God bless you all.
